

COMPULSORY TASK 1

I am taking the Web Development Bootcamp where I will learn HTML, CSS, JavaScript, Node.js and React.js. Web development satisfies my need for creativity. A well-designed website is essential for reaching a larger audience and generating more customers for the employer. Being on a career break I believe this Bootcamp on web development helps to acquire skills and get back on my career with confidence.

Currently employed students not looking for change

If you're currently employed and not looking for a new role yet, we encourage you to also list a contact at your company who would be responsible for or involved in a decision for an internal role check/change into tech.

I am currently on a career break. I have 5 years of experience in C#, ASP.net. And I also carry basic knowledge in HTML, CSS, JavaScript. Hence I have filled this form identifying Mid-Senior position with front-end technologies.
